

The effects that K-Love radio and its sister station have on our communities in Oregon are substantial. For instance, they broadcast church events for free as an outreach to the community. These allow people to find help in their time of need. It could be for a hot meal, transportation, or just encouragement during a difficult or hopeless period. They are doing a wonderful job in this regard.

If this station were to go off the air, many lives would be severely impacted for the worst. There would be more homeless who would have little or no hope, lives that could be harmed when they need help most during a domestic dispute or other trauma, and less ability for local area churches to encourage and assist communities that need help.

Please keep this vital radio network on the air.

Sincerely,

Matthew J. Goolsby
